AFTERSCHOOL PROGRAMS UNLOCK YOUNG PEOPLE'S FULLEST POTENTIAL

That's why our network is guided by a set of shared beliefs

WE BELIEVE

Every young person deserves opportunity to realize their fullest potential.

We provide many different ways and places for young people to learn so they can develop their talents and ignite their passions.

Young people have many strengths, abilities and assets.

We value youth voice, leadership, and the many meaningful contributions young people make to our community.

Afterschool programs are important and impactful.

When we are intentional about quality, our work positively impacts young people's growth and development.

Community, family and culture are fundamental to a young person's identity.

We create welcoming, inclusive environments where young people of all backgrounds and abilities can feel safe, freely express and discover their identity, and belong to a supportive community of peers and adults.

We are stronger together.

Whole communities must act together to provide the full range of resources and experiences young people need to be successful.
